

Inside Sales

AT-NET is proud to introduce you to our Inside Sales team. Our valuable and highly-qualified representatives are here to resolve your day-to-day needs. They are your daily liaison to AT-NET and can handle your equipment needs, training events, questions or concerns. They are also in charge of our E-Commerce Site and Business Development.

AT-NET Services Designs, Builds, Secures, & Manages Technology Solutions for the Business, Government, Manufacturing, Education and Healthcare sectors. We are committed to becoming the one trusted partner for all your technology needs. We get IT right the first time & provide customers with excellent value.

E-Commerce Site Assistance

Our one-stop Online Electronic Store is stocked with over 700,000 products. From start to finish, our Inside Sales team is ready to offer their expertise in designing customized solutions, while our network engineers assist customers with the implementation and long-term management of those solutions. We strive to have the largest selection and best price. Inside Sales is equipped to help find the right product to fit your needs whether it be as small as a cable or new PC memory or as big as a new server.

Contract Renewals

In addition to procurement services, our inside sales team offers contract renewal assistance. Assistance is available for ALL software or hardware that includes service contracts or end dates. Customers are automatically entered into the program when products are purchased.

- Remove the stress from remembering renewal dates
- Offer coterminous end dates to unite service contracts
- Send reminder emails and invoices 45 days prior to expiration
- Upgrade or extend service coverage
- Notify you when products become End-of-Life and need to be upgraded

Assistance available for:

AT-NET Services

Founded in 1999, AT-NET Services has grown into the premier risk management and technology integration firm of the Southeast. With a consultative, “solutions-focused” approach, best-of-breed vendors, and the industry’s most talented sales & engineering force, AT-NET Services offers complete engineering services for the life cycle of your system; design, build, secure and manage.
